

What People Are Saying About Our Centres...

- First impressions are very important and your centre is always immaculate, and the staff are friendly and approachable. The routine is very organized and educational with the children's best interests at heart...

...Thankyou for the timeless hours you and your staff put into making the centre an enjoyable place for myself and my child to come.

Mrs R

- After several negative experiences at other centres earlier in the year, Sarah came to your centre rather lacking in confidence and self esteem. During the past few months it has been wonderful for me to see how she has bloomed with ever increasing self confidence, assertiveness and skill....

...From what I have observed, combined with feedback from Sarah, it is obvious that (the centre) is a very professionally run and well planned centre, with caring and enthusiastic staff and contented children.

Mrs J

- When I first spoke with you I told you of the difficulties I had encountered at my previous day care centre, you assured me that your centre provides itself on its professionalism and that what I had experienced at the other centre would never occur at your centre. Although you seemed sincere in your assurances, experience taught me to expect that what was delivered usually fell short of what was promised, so I was both pleased and surprised to find in this case it did not....

...The centre is obviously well equipped and run, however what impressed me the most about your centre was the staff. They were always polite, friendly and professional in my dealings with them, and they were always caring and encouraging with the children....

Mrs P

- I just wanted to follow up on the conversation we had yesterday, and sincerely thank you and your staff for the work you do with my son Ethan. The changes in his confidence and ability to separate from me have been remarkable, and are a credit to your staff. It is a pleasure to send Ethan to a centre where I feel confident that he is cared for, yet also in an environment where he is stimulated in the appropriate areas of development. Well done and again, Thank You....
